

ANALYSING WERATEDOGS TWITTER ARCHIVE

I have analysed and visualized tweet archive of Twitter user [@dog_rates](#), also known as WeRateDogs. [WeRateDogs](#) is a Twitter account that rates people's dogs with a humorous

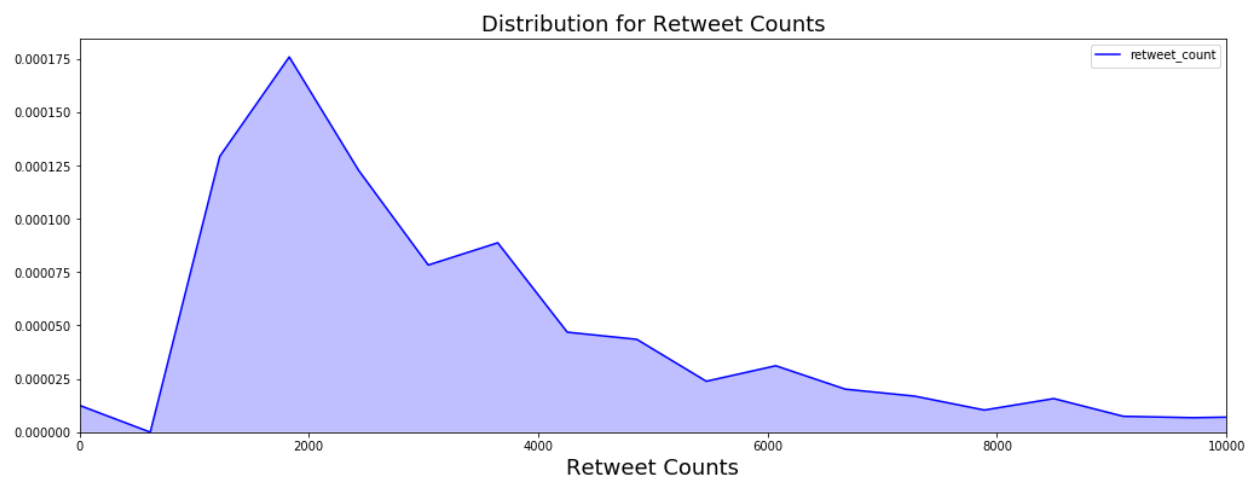

comment about the dog. These ratings almost always have a denominator of 10. The numerators, though? Almost always greater than 10. 11/10, 12/10, 13/10, etc. Why? Because ["they're good dogs Brent."](#) WeRateDogs has over 4 million followers and has received international media coverage.

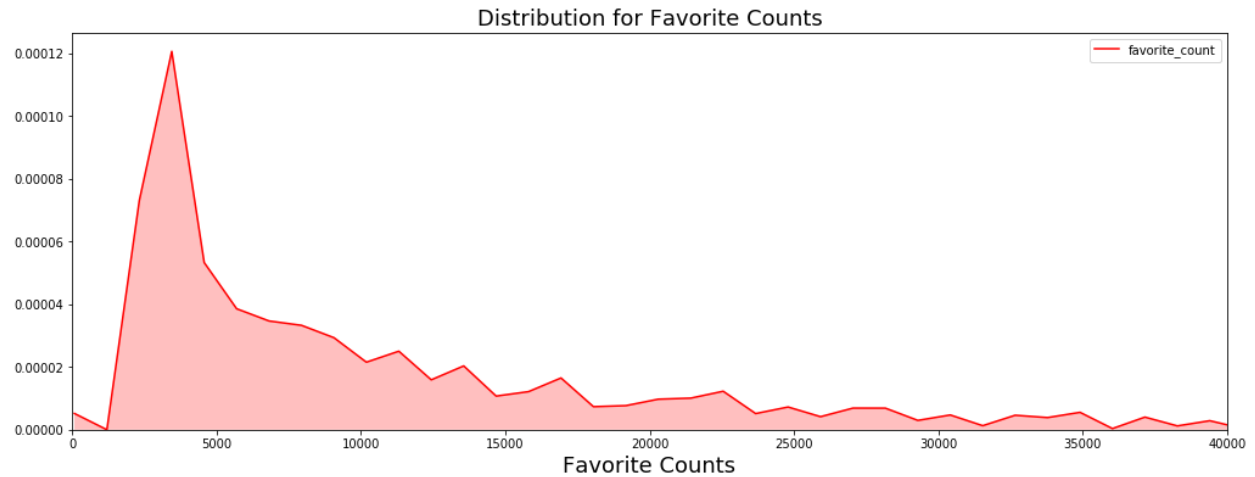

What are the dog stages users send to WeRateDogs?

Ohh users are more inclined to send pupper images compared to rest. Does it mean they love only puppies and not other dogs. Don't worry Sometimes numbers can be deceiving We should dig in more to be sure.

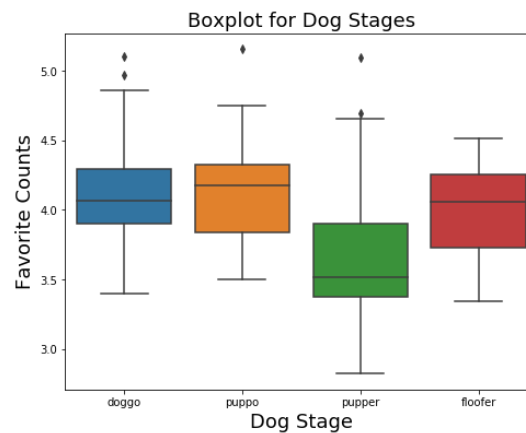

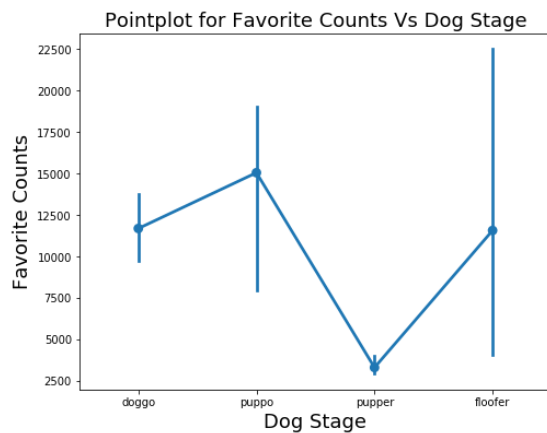

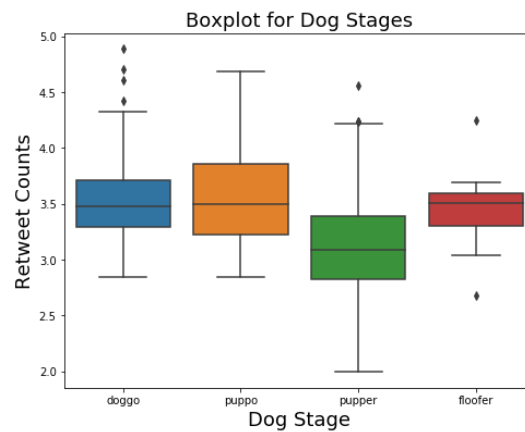

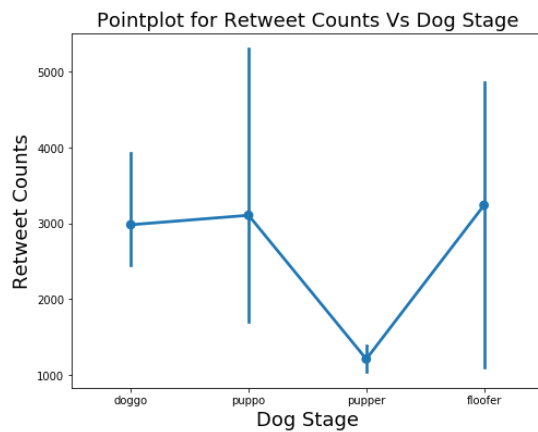

Users show their love on twitter to Dogs by retweeting and giving hearts. More the counts More popular the dog is!!. Let's first look at their distribution.

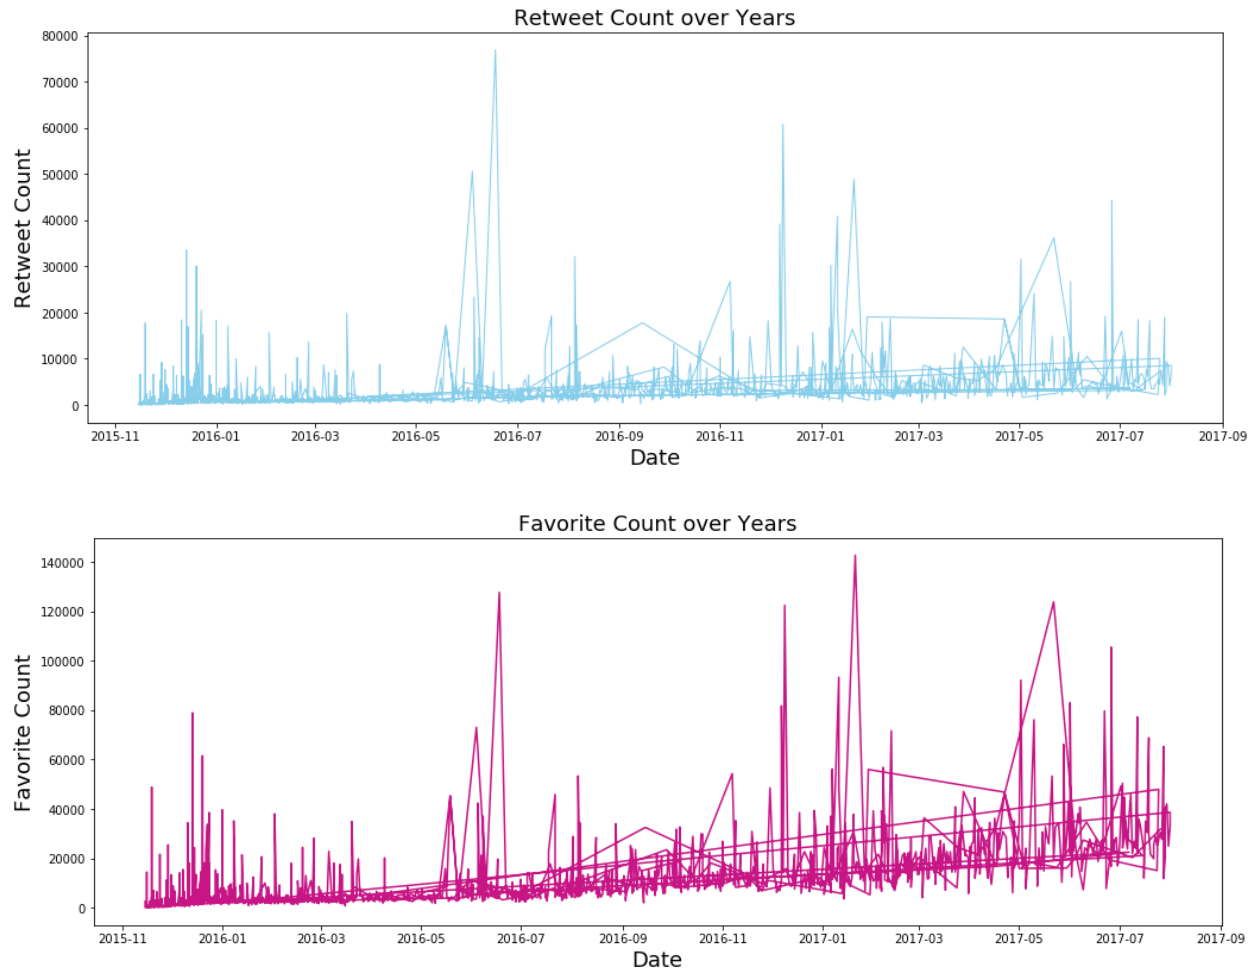

Majority of retweet counts ranges between 600 to 4000 and favorite counts from 1000 to 11000.

Now I am more curious to see which dog stage receives highest retweet and favorite counts.

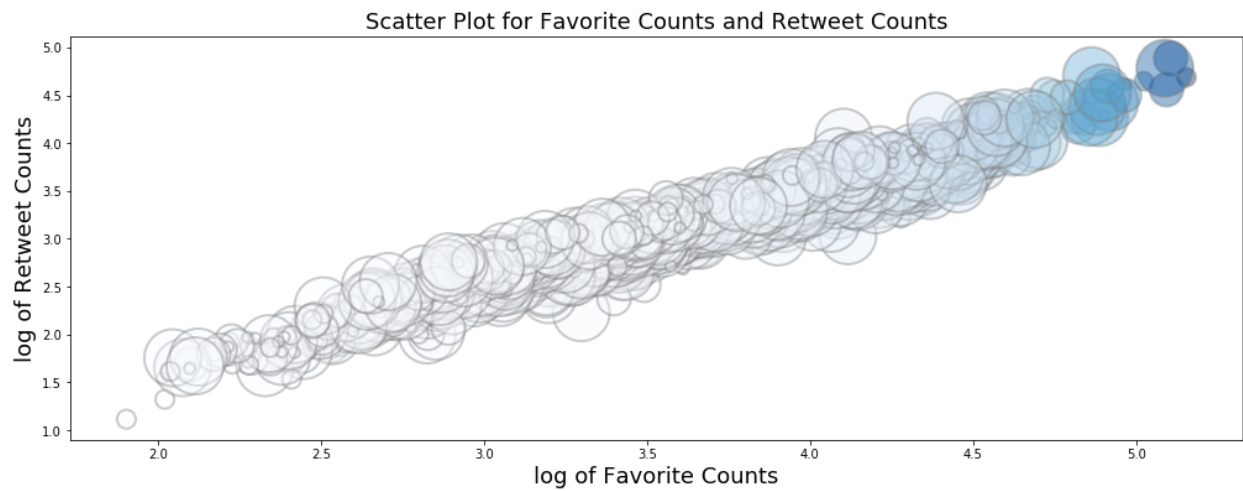

See I told you, though people share images of pupper the most retweet and favorite counts of puppo, floofer and doggo is higher than Pupper.

Does retweet count and favorite counts change over time.

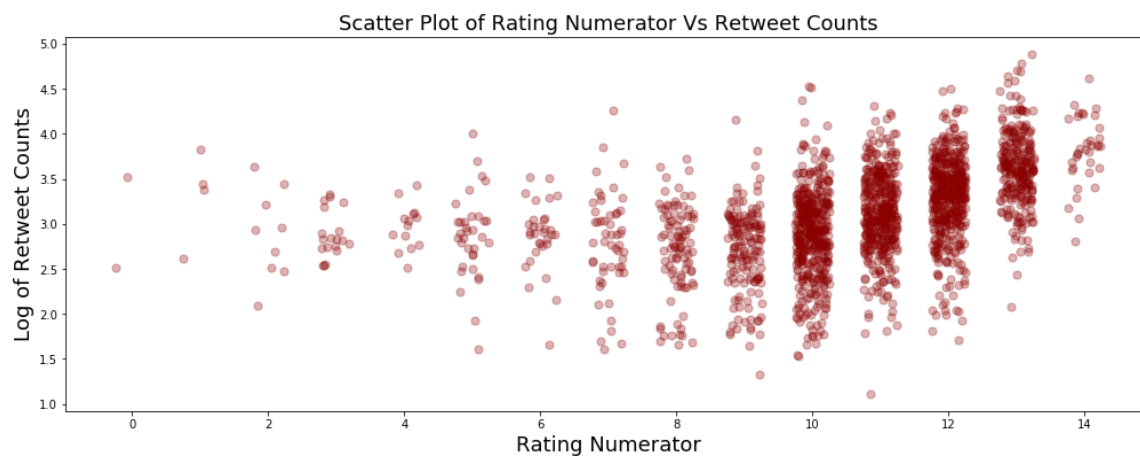

This shows people have started loving dogs more over the time. That's good. Isn't it?

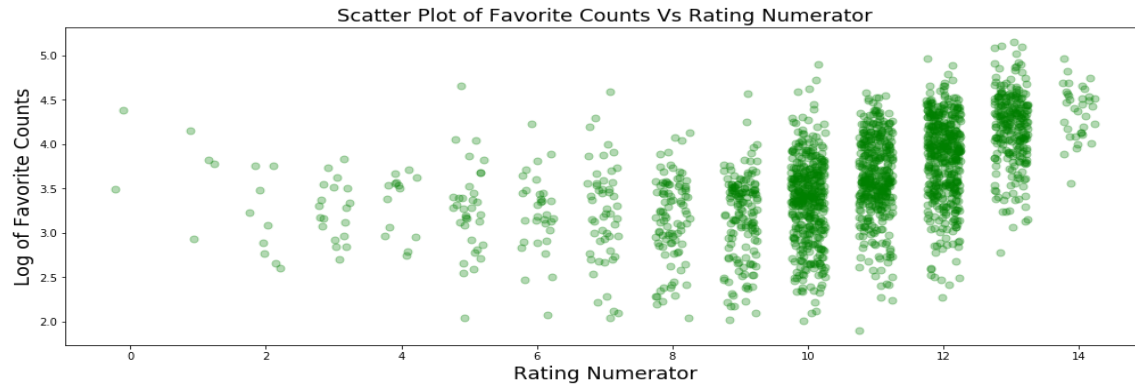

Are retweet counts and favorite counts are correlated?

Hmm..Retweet counts and Favorite Counts are strongly correlated with each other.I would also like to see their relation with numerator rating.

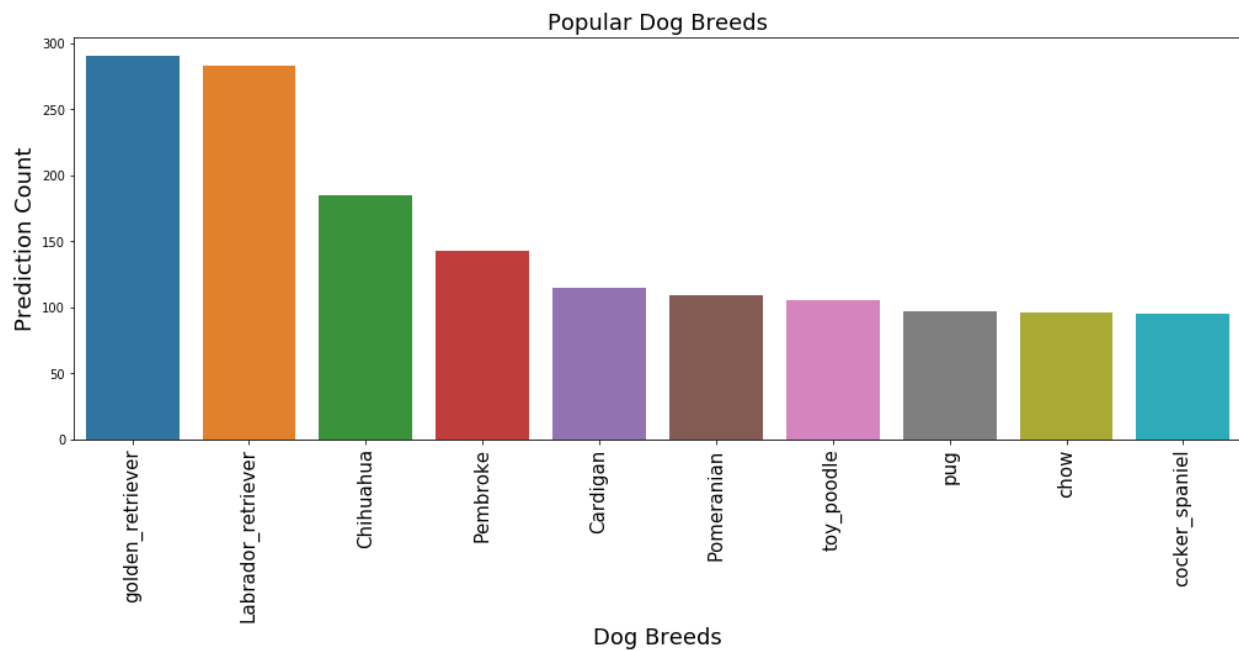

Is there any relation between rating numerator,retweet counts and favorite counts?

It seems WeRateDogs are generous they have given rating above 10 more number of times than below 10 and also retweet counts and favorite counts increases with increasing numerator. Because Dogs are Pawsome...!!

Let's look at the popular dog breeds.

He has scored 4th highest favorite counts among all Golden Retrievers.

Pose with Swag What can be more cool than this..

Labrador_retriever has got highest favorite counts 142777.

Mischievous dog though!!

WeRateDogs have rated with highest rating of 1776 to Atticus

He's quite simply America.
